EXPERIENCE

Cloud Computing Intern — Informatrix IT, Nagpur

Jan 2025 – Jun 2025

- Worked on cloud computing projects involving infrastructure automation and DevOps tooling.
- Gained hands-on exposure to containerization, CI/CD pipelines, and cloud deployment workflows.

Automated Backup & Restore System | [Repo link](#)

DevOps · Docker · Ansible · Kubernetes · Bash

- Zero-downtime reliability: backup and restore logic runs in isolated containers defined by Dockerfile, eliminating host environment conflicts.
- IaC orchestration: Ansible Playbook (setup.yml) deploys the entire system across hundreds of hosts with a single command.
- Secure & flexible: configuration separated into hosts.ini for easy management of backup targets and credentials.
